

TORONTO REDIMIX

ESTABLISHED: 1983

A leader in the industry, Toronto Redimix supplies a wide spectrum of clients, ranging from high volume developers and builders to contractors and municipalities across the Greater Toronto Area. Toronto Redimix plants supply ready-mix concrete for a variety of applications, from high-rise condominiums to basement foundations to structural reinforcements using the most modern technologies for batch mixing concrete.

Toronto Redimix has plants located in Concord, Brampton and Etobicoke with the Head Office and central dispatch system located in Concord. With the most innovative modern technologies, Toronto Redimix serves the industry as one of the largest independent ready-mix producers in Ontario. The company introduced the FIRST Computer Colour Batching System in Ontario and is ready to continue meeting the modern and demanding needs of the industry in the fast growing Greater Toronto Area.
