## ESTABLISHED: 1995

With three decades of reputable sand and gravel supply service, the company founders officially consolidated their expertise into Brock Aggregates in 1995. From then on, Brock has grown steadily to serve the growing needs of the construction industry in the GTA (Greater Toronto Area).

Today, Brock operates five gravel pits, five conveniently located depots, and controls deliveries from these and other pits and quarries from a central dispatch. Brock Aggregates serves the industry with the highest quality aggregate available and an unsurpassed level of customer service. Meeting the needs of a variety of different sectors of the construction industry including road building, foundations, drainage, specialty items and concrete aggregates, the company is known for its unparalleled ability to handle any size project and timeline.
