

DRAGLAM WASTE & RECYCLING

ESTABLISHED: 1997

Draglam Waste & Recycling is a Canadian, privately owned company established in 1997 to fill a need for responsible waste management and recycling services to a rapidly growing construction industry in the Greater Toronto Area. Today, with a Head Office in Concord and two conveniently located transfer stations, the company provides comprehensive waste diversion services to hundreds of businesses, construction sites, homes, schools, apartments and more.

Committed to operational excellence, innovation and environmental integrity, the team at Draglam Waste & Recycling is using the latest technologies and techniques to significantly reduce the amount of waste going to landfills. In addition, it has a strong focus on helping support its customers in their recycling efforts.
